Project Partners  
1st Transnational Meeting

## Ecological Understanding of Risks of the Environment through a deeper Knowledge and Awareness: EUREKA

*At the European level in 2012, Early School Leaving (ESL) affected five and a half million young people.*

*“Four Countries  
Four Associations  
Four High Schools  
come together for  
EUREKA.”*

The indicator for early leavers from education and training is defined as the percentage of the population aged 18-24 with at most a lower secondary education and who were not in further (formal or nonformal) education or training during the four weeks preceding the survey.

**EUREKA**, aims to intervene in this issue by promoting innovative and digital educational methods and the development of new training courses that foster the attractiveness of the school environment and its key-role for a much more smart and inclusive society.

The project also cross-cuts and joins other EU 2020 strategies, such as those dealing with climate change effect and unemployment.

# 1<sup>st</sup> Transnational MEETING

EUREKA project's kick-off transnational meeting took place in Forcalquier (France) on December the 9th and 10th of 2019.

The objectives of this meeting were to allow the partners to meet each other, share tasks and present their respective methods. Notably, the partners elaborated a common methodology for the production of EUREKA project's three main predicted results:

- Output 1: Development of an interactive education and data haring platform with a virtual community tool,
- Output 2: Production of "GAP analysis report" supposed to allow the partners to understand the comprehension gap that need to be filled in order to attain the project's objectives, especially regarding climate change, early school leaving, unemployment or science related pedagogy and digital tools,
- Output 3: Production of Good Practices Handbook summarizing the project's objectives, methodologies and results and describing the experimentation conducted by the partnership for its potential reproduction elsewhere in the EU.

## Project Partners at the Kick-Off meeting

# PROJECT DETAILS

**Programme:** Cooperation for innovation and the exchange of good practices KA201- Strategic Partnerships for school education

**Project Partners;**

- Alpes de Lumière,
- Associazione Istituto EcoAmbientale,
- Hellenic Society for the Protection of Nature
- Association for the Conservation of Antalya Orchids and Biodiversity
- Coopérative d'initiative jeunes,
- Liceo Croce Aleramo of Rome
- 4th Geniko Lykeio Lamias
- Gülveren Anatolian High School
